Please join us for this special conference with
Dr. Chuck Harding and Awake America.

GUEST SPEAKER:
DR. CHUCK HARDING

AWAKE AMERICA is an organization that is committed to three objectives:
EDUCATION - to become more informed about our Judeo-Christian heritage
and the current state of national and international affairs
ENGAGEMENT - governmental processes so that the precious liberties, such as
freedom of speech and freedom of religion, can be retained and maintained.
ENCOURAGEMENT: show how to commend our representatives when they
take a conservative stand and respectfully criticize them when they
compromise or take a liberal stand. This will hold our Legislative
Representatives accountable and fulfill our role as the conscience of the
nation.

AWAKE AMERICA will also challenge God's people to intercede in daily prayer for our nation and
representative leadership. For more information on AWAKE AMERICA & Dr. Chuck Harding please
